

Installation Guide: NetScore WMS Mobile for NetSuite

This guide walks you through the steps to access, view, and install the **NetScore WMS Mobile for NetSuite** application from the SuiteApp Marketplace.

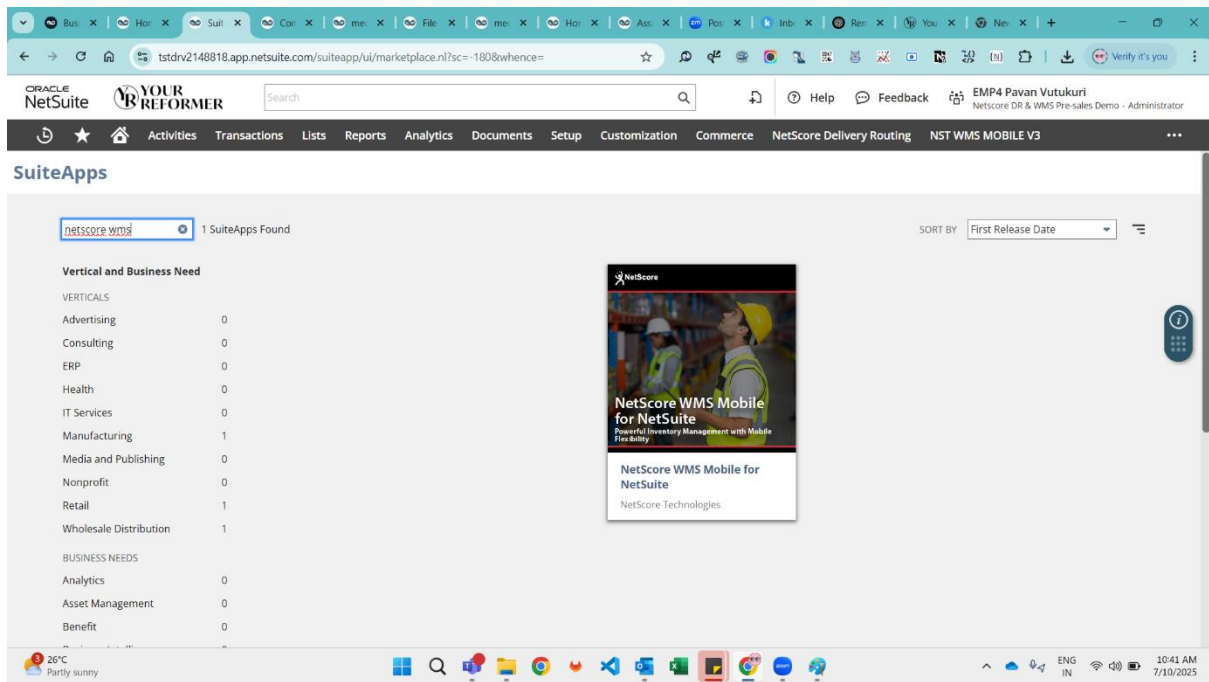

✦ Step 1: Navigate to SuiteApps

1. From the **NetSuite Home Dashboard**, locate the top navigation menu.
2. Click on the **More Options (three dots)** in the navigation bar.
3. Hover over **SuiteApps** under the dropdown.

✦ Step 2: Search for the Application

1. In the **SuiteApps** marketplace, type “**netscore wms**” in the search bar.
2. The system will return the matching SuiteApp.
3. Click on the card titled “**NetScore WMS Mobile for NetSuite**”.

🔗 Step 3: View Application Details

- You will see the **application overview**, including the description, key benefits, and supported platforms.
- It also includes:
 - **Publisher:** NetScore Technologies
 - **Latest Version:** 3.2.9
 - **Upgrades:** Manual
 - **Built for Oracle NetSuite:** Yes (Hybrid SuiteApp)

NetScore WMS Mobile for NetSuite

NetScore WMS Mobile offers a comprehensive solution for wholesale distribution and manufacturing companies looking to streamline their warehouse operations. By leveraging the power of barcode technology and integrating it with the NetSuite platform, we make it easy to manage and optimize the flow of products through your warehouse. Our cloud-based mobile application streamlines the process such as receiving, putting away, picking, packing, custom labeling, and shipping, ensuring accuracy and efficiency. With real-time data and analytics, you have the visibility and control you need to improve productivity, reduce errors, and enhance customer service through efficient order fulfillment. Our solution is flexible and customizable, making it easy to scale warehouse operations and grow your business.
